Brought to you by Bee Heroic, Geoengineering Free Canada, and Lightning Communications

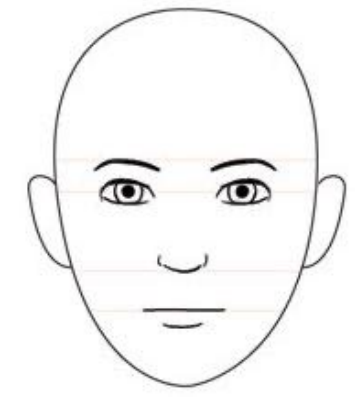

I never learned
to think critically.

Neither did I!

Psy-op: Plandemic to Reset *Constructing a Compliant Society*

Have you ever wondered how did billions of global citizens got duped into falling for one of the most biologically, environmentally and economically destructive lies in human history?

Find out here:

Constructing a Compliant Society is an introduction *to* the fundamental - *environmental, biological, and societal* - engineering schemes that elite globalists have used in their effort to *create today's obedient society*. Topics include: Elitist's objectives, covert climate, food, & communications projects, manipulation of education & media, and more.

Bee Heroic is an adult-focused pollinator and climate project. The project exposes the issues and impacts surrounding the current mass extinction event, the technologies driving it, and how it relates to Agenda 2030.

Bee Heroic's decade long work includes presentations, events (hosting and speaking), mixers, game-shows, two western - states tours, presenting to tens of thousands of students, community and business members, farmers, ranchers, firefighters, agencies and more.

Founder, director, lead researcher and educator, Nikki Florio, has worked in environmental, educational, and sustainability fields for nearly three decades. She holds degrees in Natural Sciences and Humanities, and has designed and run several environmental/sustainability education and outreach programs including Tahoe Regional Environmental Education (TREE). Her work in exposing early impacts of genetically engineered crops and animals, agrochemical poisons, geoengineering, 5G/IoT, and true-sustainability has been driven by her love - and understanding of the value - of nature.

Bee aware. Bee proactive. Bee heroic.
