June 7, 2018 12:00 - 6:00 pm

Buds and Bees at Venus Moon Ranch is a celebration of pollinators and the hemp industry. Join Bee Heroic and Venus Moon at the farm in Hesperus Colorado for an afternoon that includes presentations on everything from pollinators and hemp, to organic farm conversion, keeping agrochemical out of good business, and hempcrete construction benefits. Bee/ecofriendly/hemp booths will be on site; and more. Events are topped off with a bee-connected Organic Spirits mixer, compliments of Drake's Organic Spirits.

Keeping Hemp Out of the Hands of Agrochemical Companies:

Bode Wellness will be discussing the need for small farms and the value of “co-operatizing” farmers in order to protect them from nationalization of hemp; which attempts to cut them out of the industry. Co-operatizing allows “small” producers to own and distribute products themselves, and reduces “sell out” to larger corporations. He provides tools for immediate action. Bode will also discuss Bode Wellness products and invitations to join.
